

Healing Shouldn't Hurt.

Protect your patients with
Clear Soft Silicone
IV Securement Dressings.

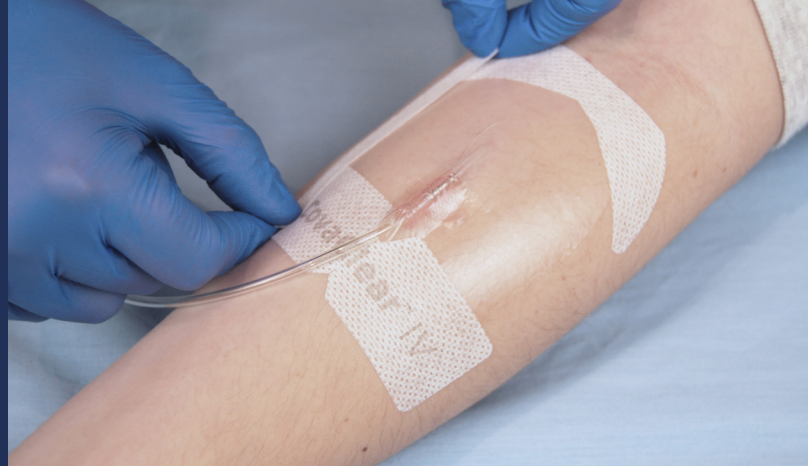

CovaClear[®] IV

Compassionate Care Solutions
Designed for Patients, Made for Care Providers.

covalon
TECHNOLOGIES LTD.

CovaClear® IV is a Soft silicone adhesive clear IV Dressing that helps protect insertion sites from external contaminants.

Designed for Patients, made for Care Providers

CovaClear® IV is the perfect all-in-one dressing to protect your IV lines and keep your patients safe and comfortable.

End Cringeworthy Dressing Removals

Protect fragile skin, reduce pain, and minimize trauma with CovaClear® IV's patented soft silicone adhesive technology.

Protect Sites from External Contaminants

CovaClear® IV's breathable and fluid impermeable film backing protects against external contaminants including body fluids, bacteria, and viruses.

Feel Confident with Total Transparency

CovaClear® IV is a clear dressing, providing complete site visibility to allow for active monitoring of IV and catheter insertion sites, without the need for removal.
